## CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD CENTRAL VALLEY REGION

### NOTICE OF PUBLIC WORKSHOPS AND REQUEST FOR COMMENTS

#### Tentative Waste Discharge Requirements General Order For Existing Milk Cow Dairies

The Central Valley Regional Water Quality Control Board has prepared a tentative General Order that would serve as Waste Discharge Requirements (WDRs) for existing Milk Cow Dairies in the Central Valley Region. This Order would apply to most dairies that do not have WDRs at this time. It is expected that most existing individual WDRs for dairies will be rescinded and replaced by this General Order.

These workshops are planned to brief Board Members and the public on the contents of the tentative General Order, and provide an opportunity for interested parties to provide comments to the Board on the tentative General Order.

**A quorum of the Central Valley Regional Water Quality Control Board will be present at the Sacramento workshop, which will be held as part of a regularly scheduled Board Meeting. A quorum of the Central Valley Regional Water Quality Control Board may be present at the Fresno workshop.**

The public workshops are scheduled for:

DATE: Thursday, December 7, 2006

TIME: The Regional Board meeting starts at 8:30 am. The exact time that the workshop will start is not known at this time.
